Your Bank Account

Will be appreciated by us. It cannot be too small to receive our closest attention, for the little depositor of today may be the largest depositor in a short time. If you are in business, or about to go into business, or have never had a bank account in Lubbock, or if you contemplate a change in your banking relations, it will be to your interest to come around and have a talk with one of our officers. Being the oldest bank in the county and with our large resources, we are able to offer you many inducements to do your business with us.

We invite our readers to read the ad of Jack Alley, of Tahoke, in this issue of the Avalanche. Mr. Alley is putting on a big sale of serviceable goods, and is offering some great bargains in groceries, and will make it to your interest to attend this sale.

Judge Robinson returned the latter part of last week from a professional trip to Dallas, Fort Worth and Austin. The Judge says it is a shame and disgrace to the state to see how some of our representatives are killing time, and drawing their wages for absolutely nothing. This session of the legislative body has certainly taken this cake. The governor and the legislature have been cross from the very beginning, and the lack of harmony is probably the main cause of the notorious record they have made for doing nothing.

R. B. Shaw, one of the most prosperous farmers of the north part of this county, was in the city the first of the week. While in town he was a pleasant caller at this office, and subscribed for another copy of the Avalanche to be sent to his brother in Van Zandt county. Mr. Shaw was among the number of country people who responded liberally to the call for bonus money for the railroad, and in addition to this will give the right-of-way through his land which is very liberal of him, and for which he deserves due credit. The committee is very thankful to those in the country who responded to the call for bonus money, and to them we hope for the greatest success possible.

THE STANTON RAILROAD

Work Expected to Begin in a Very Short Time on Route From Stanton North

Our people have every reason to congratulate themselves for the successful termination of the railroad proposition. The papers have all been signed up and are now in the hands here and at other points along the proposed route that gives assurance of the building of a northern connection in a short time. The terms have all been met and the matter closed so far as the local situation is concerned and our people feel confident that building operations will be commenced at once. We have every reason for rejoicing that our people have done all that has been required of them. It is the intention of the railroad company to put in the line from here to Lamesa in actual operation within nine months.—Stanton Reporter.

Is Your Cooking and Housework a Drudgery?

It would not be so if you were furnished with the proper cooking utensils and house keeping appliances. When a farmer or a mechanic goes to work he wants all the best tools that can be bought. Why shouldn't a housekeeper be supplied with all the conveniences that modern invention has produced to lighten her work. See our line of Cooking Utensils and housekeeping appliances.
